

Your Introduction to Nayax

Virtually everyone has a credit card and nearly everyone makes an impulse purchase occasionally. Be ready to accept payment by card, so you don't lose a single sale.

Nayax Card Payment Systems - No Cash - No Worries

Nayax card payment systems are PCI DSS certified and handle credit, debit scheme, in house prepaid cards using HID and MIFARE technology, Apple & Android Pay. Our card readers support chip and proximity cards, all within the same unit.

VPOS Touch, the card reader, fits the standard slot or bill validator hole in your vending machine; if there is not one to spare then it can be flush-mounted on the front panel of the machine, for simple and convenient installation.

Nayax's Telemetry Solution

Our monitoring solution uses a proprietary device and the mobile phone network to pull data from the vending machine to deliver to a remote server. Access your real-time data using a secure password from any computer that has an internet connection.

Use MoMa, Nayax's mobile app to see this information anytime, anyplace. Data is retrieved from MDB and DEX reports (or from the coin mechanism in some Executive based machines).

We deliver this valuable information via numerous reports, such as:

- 
 Expected cash
- 
 Sales by machine & customer
- 
 Sales by product
- 
 Sales since the machine was last filled
- 
 Pick list by route and machine

Nayax reports show you details of each transaction, time, date, product purchased and card scheme. This assists in reconciling back to payments made to you by the merchant service. In addition, you can view graphs showing sales by time of day, day of week and month of year, all to help you better understand your operations.

Costs

Merchant set-up	Monthly fees	Transaction fee
\$150 + GST	License & support & data \$14.70 per month, per machine + GST Nayax handling fee for credit card transactions 1% + GST of transaction value Merchant account fee \$20 + GST per month (only 1 required per fleet)	Less than 5 machines
		Card sales up to \$6.99 22¢ + GST (This includes acquiring, interchange & clearing bank fees) \$7.00 & above 1.50% and 13¢ + GST (This includes acquiring, interchange & clearing bank fees)
		5 or more machines
		Card sales up to \$6.99 17¢ + GST (This includes acquiring, interchange & clearing bank fees) \$7.00 & above 1.42% and 13¢ + GST (This includes acquiring, interchange & clearing bank fees)

Due to Australian regulations you will need to have an agreement with an Australian gateway and an Australian merchant bank. Please note that we interface with the Card Access Services gateway.

The transaction fees above are charged by the gateway/merchant bank for their services in the card transaction process.

Nayax has recently negotiated new transaction rates on behalf of our customers with CAS & Paymate.
